Application Summary

Project Name *(Project identifier to be used as a reference in correspondence)*
Penn Energy - Brantgate

Project Description Summary
(This summary should reflect the description in the documents upon which consultation has been completed and if it does not, the difference should be highlighted)

The proposed project is a Class 3 Solar Power Generation Facility located in the County of Brant with a total Electrical Energy Generation Capacity of not more than 8.0 megawatts (MW) of AC power. The facility will consist of photo-voltaic (PV) modules installed on immobile, ground-mounted rack structures. The panels will be oriented towards the Southern sky and tilted at a fixed angle toward the sun. The proposed project area has no identified natural features. The project components are all located within areas that have recently been used for crops/quarrying and not within any plantation, thicket, woodland, forest or valleyland).

***Please note:** the release of information contained in application forms and documentation submitted in support of applications for approval is subject to the provisions of the *Freedom of Information and Protection of Privacy Act*. This Act defines what may and may not be disclosed to the public, and is used to assess all requests for information contained in the documents on file with an application for approval. The information submitted with an application for approval may also be subject to the *Environmental Bill of Rights*. In those situations, the application and the associated non-confidential supporting documentation is made available for review by members of the public. The applicants should therefore identify all documents or portions of documents as noted above which are to be considered confidential and must provide detailed evidence in support of this claim. This evidence will be one of the factors the ministry would consider when making a decision regarding disclosure of specific documents on file.
